

My current NO-Call list law in Indianapolis is the best type of listing and has stop the endless evening calls,
Please do not weaken this law or change it wording. For the first time I can enjoy my dinner and relax after work.
My phone is my tool to use not the sales dept.I pay for this right and the taxes for other to have low cost phones. Now you would spend that money for other to try to sales me items on my time (NO).
The law works here why change it!
